

REMARKS

Applicants have amended the specification to conform the language of the specification to the FIG. 4.

Submitted herewith is a copy of corrected FIG. 4.

FIG. 4 is a **copy** of a photograph which shows a patterned thin film of organic-inorganic hybrid deposited by spin-coating on a substrate patterned with a self-assembled molecular monolayer deposited by microcontact printing.

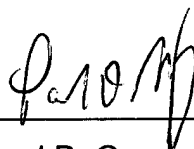

The corrected FIG. 4 provides a more detailed view of the patterned thin film than the FIG. 4 that was previously submitted.

In view of the preceding, Applicants respectfully request that this application be moved to issuance.

Respectfully submitted,

Date: October 28, 2004
